PÉTER KÓBOR (2020) An overview of the big-eyed bug fauna of French Polynesia (Heteroptera: Lygaeoidea: Geocoridae). *Zootaxa*, 4743: 359–370.

In the list of the type material of *Germalus ashlocki* new species (page 362) the depository of the holotype was omitted by error. As a consequence, the name of the species is unavailable (International Code of Zoological Nomenclature, Fourth edition, Art. 16.4.2). It is hereby stated that the holotype is a male deposited in the Snow Entomological Museum, University of Kansas (SEMC). The purpose of this note is to validate the name of the new species from the publication date of this erratum by a reference to the original description as indication.
